Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Saturday 23 Jan 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Cold and frosty. Rain and snow reaching the southwest later.

This Evening and Tonight:
Most places becoming dry, clear and frosty with a few freezing fog patches developing. Wintry showers continuing in northern and western Scotland with icy stretches. Rain, sleet and snow arriving in southwest England and south Wales later.

Sunday:
Rain, sleet and snow spreading northeast into the Midlands and southeast England, giving some disruptive snow in places. Drier and sunnier further north, with wintry showers in western Scotland. Cold.

Outlook for Monday to Wednesday:
Cold but dry for many at first, with just a few wintry showers in places. Rain pushing northeast by Wednesday, preceded by hill snow in the north. Becoming slowly milder.
